

Follow Your Heart

Rea Garvey

These things I've done
these things I've said
I'm sorry now
can we start again

It's hard to change
change who I am
please stay the course
please understand

I fucked it up tonight
I said some things I can't deny
I stepped outside the lines
i was cruel to you

I fucked it up tonight
I'll do my best to make it right
don't make me pay the price
but this voice inside said you have to follow

Follow, follow, follow your heart
Follow, follow, follow your heart
Follow, follow, follow your heart
making mistakes is a part of this life

Don't stop believing
and don't forget who you are
you have to follow, follow, follow your heart
follow, follow, follow your heart

More sleepless days
more waking nights
let's reconcile this
useless fight

I'll take the blame
if you concede that I'm someone
you really need

I fucked it up tonight
I said some things I can't deny
I stepped outside the lines
I was cruel to you

I fucked it up tonight
I'll do my best to make it right
don't make me pay the price
but this voice inside said you have to follow

Follow, follow, follow your heart
Follow, follow, follow your heart
Follow, follow, follow your heart
making mistakes is a part of this life

Don't stop believing
and don't forget who you are
you have to follow, follow, follow your heart

follow, follow, follow your heart

No one here is perfect
least of all am I
spread your arms like wings
and learn to fly
you know you can
follow, follow, follow your heart
follow, follow, follow your heart
follow, follow, follow your heart
no one here is perfect
least of all am I
spread your arms like wings
and learn to fly
