

# Love Someone

Rea Garvey

Great minds think alike  
But few can stay the same  
And though I'm gone  
I'm never out of range  
The heart grows fonder  
The heart grows stronger  
For what it knows it needs

We stand beneath the same stars  
We're breathing from the same heart  
I'm trying to show how I feel  
We stand beneath the same stars  
We're breathing from the same heart  
I'm trying to show how I feel

I got the feeling that I love someone  
I got the feeling that I love someone  
I got the feeling that I love someone  
And the feeling is real

Life's un-chartered course  
No regrets and no remorse  
See everything as is

Come the waves come thunder  
Should world go under  
With everything we need

We stand beneath the same stars  
We're breathing from the same heart  
I'm trying to show how I feel

I got the feeling that I love someone  
I got the feeling that I love someone  
I got the feeling that I love someone  
And the feeling is real

We stand beneath the same stars  
We're breathing from the same heart  
I'm trying to show how I feel

I got the feeling that I love someone  
I got the feeling that I love someone  
I got the feeling that I love someone  
And the feeling is real  
I got the feeling that I love someone  
I got the feeling that I love someone  
I got the feeling that I love someone  
And the feeling is real

Great minds think alike  
But few can stay the same
