

Trouble

Rea Garvey

Trouble trouble trouble trouble

Your under no illusions
She has you in her sights and the that she's moving
She's gonna have you tonight
A silk skin and light confusion
Her look chills to the bone
In the music she bathes she'll make you a slave to her song

As hard as you try you can't deny
As hard as you try you can't deny

Your heart's beating like it's going to explode (trouble)
She's got a grip and she's not letting you go (trouble)
She leans over says I don't bite you're not in Kansas Toto you're in trouble
tonight (trouble)

You're mind's racing cause she's out of control (trouble)
She moved closer and she said that she's cold (trouble)
You want to stop her but you're too weak to fight

You're not in love lover you're in trouble tonight
(Trouble trouble trouble)
You're not in love lover you're in trouble tonight (trouble)

When they say god's creation I know they speak of her
She was moulded with love while the angels above looked down
She's pure pure temptation she'll tease you 'til it hurts
You're as guilty as sin without giving in to her touch

As hard as you try you can't deny
As hard as you try you can't deny

Your heart's beating like it's going to explode (trouble)
She's got a grip and she's not letting you go (trouble)
She leans over says I don't bite you're not in Kansas Toto you're in trouble
tonight (trouble)

You're mind's racing cause she's out of control (trouble)
She moved closer and she said that she's cold (trouble)
You want to stop her but you're too weak to fight

You're not in love lover you're in trouble tonight
(Trouble trouble trouble)
You're not in love lover you're in trouble tonight (trouble)

As hard as you try you can't deny
As hard as you try you can't deny
As hard as you try you can't deny
Your lust for life
A lust for life

Your heart's beating like it's going to explode (trouble)
She's got a grip and she's not letting you go (trouble)
She leans over says I don't bite you're not in Kansas Toto you're in trouble
tonight (trouble)

You're mind's racing cause she's out of control (trouble)
She moved closer and she said that she's cold (trouble)
You want to stop her but you're too weak to fight

You're not in love lover you're in trouble tonight
(Trouble trouble trouble)
You're not in love lover you're in trouble tonight
