

In My Room

Ready For The World

She's just the girl for me
But she wants to do what she wants
I'll take her to my house
And show her my everything

In my room
She wants to come in my room
In my room
It's so quiet baby, in my room

Tonight seems the only night
That everything feels so right
I'll kiss your body all over
And let me love you all night

In my room, do it till dawn baby
In my, my room, aw baby she wants to come
In my room, oh oh oh oh
In my, in my room

Your just the girl for me
But you wanna do what u want
I'll kiss your body all over
And let me love you all night

In my room, oh so quiet baby
In my room, she wants to go
In my room, oh oh oh oh
In my, in my room
