

In U.S., A's for apathy  
Not bullshit democracy  
Red white and blue is all you see  
But does it mean you're really free?

In U.S., A's for anarchy  
Not bullshit democracy  
I want total liberty  
I want peace and anarchy

They tell us how to act and be  
Fuck that mental slavery  
With standards and authority  
How can you think you're really free?

Do what you want be what you be  
Don't fall for their hypocrisy  
Open you mind! Wake up and see!  
True freedom is anarchy!
