C Inside

Reamonn

If you need a number, You can call on me
Cause if you want some loving, you get it all for free
But if you think it's over and you've had enough
Put your hands in my reach and I'll pick you up
Cause if you think it's over and you run for cover
You try and hide open up cause I can see inside
No you don't want mercy and you can't say please
Cause you took a journey now you're on your knees
But the trip ain't easy cause I've been there too
But I'll keep on giving until I'm breaking through
Cause if you think it's over and you run for cover
You try and hide open up cause I can see inside
Open up cause I'm not blind I can see inside
Cause If you think it's over and you run for cover
You try and hide open up cause I can see inside
Cause if you think it's over and you run for cover
You try and hide open up cause I've been inside
