

## Flowers

Reamonn

She brought me flowers and then she'd say  
Don't give me emotion 'cause I'll throw it away  
She brought me flowers I heard her say  
Don't give me emotion 'cause I'll throw, I'll throw it away  
Throwing it away

She's got the power to make me stay  
I don't know if I like it but I just can't run away  
She's got the power to make me stay  
I don't know if I like it but I just can't, just can't run away  
Just can't run away

And what I've learned, learned from this is  
Is that a kiss is just a kiss  
And what I've learned, learned from her  
Is that to love you gotta be who you are now

You can't just turn, turn away  
From who you are, what you wanted to be  
You gotta learn, learn to see  
That it's not enough, enough for me

You can't just turn, turn away  
From who you are, what you wanted to be  
You gotta learn, learn to see  
That it's not enough, enough for me

I want it all, I want it all  
Right or wrong, right or wrong  
I want it all, I want it all

She brought me flowers just to say  
She'd packed her bags, she's leaving, she's on her way  
She brought me flowers, that's okay  
'Cause some things last forever and some just fade away
