

Big Blue Sky

Reba McEntire

Come On baby, take a look outside, it's a big blue sky

We didn't listen when they tried to tell us we were too young to know
They tried to slow us down but, we always found another way to go.
Before you know it we were waving goodbye, driving away
off into the big blue sky
We went out lookin for the best jobs kids like us could get
We got hired and fired, and worn out tired but we never quit.
Too dumb to worry or wonder why
we were chasing our lives off into the big blue sky.

I guess we were just
nothin but a big blue sky

We've had earthquakes, twisters, hurricanes, tidalwaves and hail down n our
heads
We've been knocked down, sucked in
spun round, shaken up, thrown away
and left for dead
but somehow we always made it out alive
on the other side of the Big Blue Sky

Maybe we were just crazy enough
to try and outrun the rain
The storms we've been through just proved that we can make it through anything.
you'll never see how good it can be
until you spread your wings and fly
baby take look at our lives it's nothing but a
Big Blue Sky

It's nothin but a big blue sky

Baby lookin back
everything they said
Like how we wouldn't last how far we'd never get,
It's a great big lie
ain't nothin over head
nothin but a big blue sky

Maybe we were just crazy enough
to try and outrun the rain
The storms we've been through just proved that we can make it through anything.
you'll never see how good it can be
until you spread your wings and fly
baby look at our lives
Take a look at our lives
Yeah look at our lives
It's nothin but a Big blue Sky

Nothin but a big blue sky

It's a big blue sky
