One to One

Reba McEntire

One to one You and me Anyone with eyes can plainly see How it is with you and me

One to one
From now on
In each other's arms where we belong
And how we love when we're alone

We know each other's needs And you make it oh so good When it's just you and me

One to one You and me Anyone with eyes can plainly see Oh how it is with you and me

One to one
From now on
In each other's arms where we belong
Oh how we love when we're alone

One to One
