

## Right Time of the Night

Reba McEntire

Sun goes down on a silky day  
Quarter moon walking though the Milky Way  
Oh you and me baby  
We could think of something to do

R: It's the right time of the night  
The stars are waking above  
It's the right time of the night for making love

No use talking when the shadows fall  
Night bird's calling and he says it all  
Oh you and me baby  
We could think of something to do

R:

I got you and you got me  
Tell you that's the way my mama always said it should be  
Oh I'll be good and you be kind  
We'll be bad if you don't mind

R: (3x)
