Room to Breathe

Reba McEntire

You ain't done nothing wrong but I think we need to talk
You might be the one but before we go too far
I need a little time to figure out my heart
Who could ask for more but I need to know for sure

I haven't been myself from the minute that we met
I ran into your world and kinda walked out on myself
All those dreams I had, I began to second guess for you
One too many questions until I know the truth

I need room to breathe
A little time to think
To make sure I don't lose me
I need room to breathe

I know you're not to blame and I swear there's no one new
This has to do with me and not a thing to do with you
So don't try to understand you don't have a thing to prove to m
e
If you really love me just give me what I need

I need room to breathe
A little time to think
To make sure I don't lose me
I need room to breathe

Please don't try to take this wrong
Please don't turn away
I just don't want to look back one day and say

I need room to breathe
A little time to think
To make sure I don't lose me
I need room to breathe

Room to breathe
