

# Whoever's Watchin'

Reba McEntire

I'm not wasting my time on earthly longing  
Let that glory leave me be  
I'm just tasting my life story  
Just a page in history

Whoever's watching  
Must be watching, over me  
Whoever's watching  
Must be watching, over me

Well I'm not hurting like I used to  
I got lucky, can't you see?  
Love came searching, it could choose you  
Love's the greatest victory

Whoever's watching  
Must be watching, over me  
Whoever's watching  
Must be watching, over me

I always look to the sky and held my head high  
Had to be what I had to be  
Till the day that I die  
Yes, I wonder why

Somebody's watching  
Watching over me, yeah

Whoever's watching  
Must be watching, over me

Well if you know me, you know I've squandered  
Everything that's dear to me  
Still I stand here in total wonder  
How it's all come back to me

Whoever's watching  
Must be watching, over me  
Whoever's watching  
Must be watching, over me

Whoever's watching  
Must be watching, over me
