

# You Can Take the Wings Off Me

Reba McEntire

Now I've never been in with the fast crowd  
I've never been closer than just a little over the line  
I know those nights I'd find great temptations  
I go home to bed alone  
Pull the covers up over my mind

I let it go by and said I'd save my feelings  
But until I met you  
I hardly used them at all  
I should say no  
Oh whoa I don't want to  
Honey you will be the first one  
To watch this angel fall

So you can take the wings off me  
Lay them down so carefully  
Hold me close tonight you'll see  
I am yours and you can take the wings off me

Oh you can take the wings off me  
Oh lay them down so carefully  
Oh I should say no  
Oh whoa I don't want to  
I am yours and you can take the wings off me
