(You Lift Me) Up to Heaven

Reba McEntire

I've been to Colorado where the mountains touch the sky And I've done other things in life to lift my spirits high But nothing that I've ever tried to do Has taken me as high as loving you

'Cause you lift me up, up, up, up to Heaven When you gently lay me down You lift me up, up, up to Heaven Yes you make my world go round

I never try to get away on daydreams anymore Love's taken me to places that I've never been before But if it's not Heaven when you're holding me It's the way that Heaven oughta be

'Cause you lift me up, up, up, up to Heaven When you gently lay me down You lift me up, up, up to Heaven Yes you make my world go round

And we never leave the ground Up, up, up, up to Heaven Yes you make my world go round
