## I'll Count the Days

## **Rebecca Ferguson**

I'll count the days till I am yours
I'll save your notes from distant shores
I'll count the days hoping they'll fly
I'll spend the nights staring at the sky

Time stands still now The world's stopped spinning Nothing's ended or beginning

I'll count the days till, till I hold you My heart won't rest until I do I'll count the days till they are through Then I'll count the years of loving you So many years of loving you So many years of loving you Time stands still now The world stops spinning Nothing's ended or beginning
