

This Love

Rebecca Lynn Howard

Every mountain I had to climb
Every river I had to swim
Every desert that I crossed
Brought me one step closer to him
And this incredible love we're in

It's unlike anything I ever imagined
And just like everything I've ever dreamed of
This man, this life, this love
This man, this life, this love

I thought love was a fairy tale
Waiting on my prince to come
Tried on slippers but nothing fit
Make believe is no comparison
To the reality of this love

It's unlike anything I ever imagined
And just like everything I've ever dreamed of
This man, this life, this love
This man, this life, this love

It's unlike anything I ever imagined
And just like everything I've ever dreamed of
This man, this life, this love
This man, this life, this love, this love
