## **This Love**

## **Rebecca Lynn Howard**

Every mountain I had to climb Every river I had to swim Every desert that I crossed Brought me one step closer to him And this incredible love we're in

It's unlike anything I ever imagined And just like everything I've ever dreamed of This man, this life, this love This man, this life, this love

I thought love was a fairy tale Waiting on my prince to come Tried on slippers but nothing fit Make believe is no comparison To the reality of this love

It's unlike anything I ever imagined And just like everything I've ever dreamed of This man, this life, this love This man, this life, this love

It's unlike anything I ever imagined And just like everything I've ever dreamed of This man, this life, this love This man, this life, this love, this love
