

When My Dreams Come True

Rebecca Lynn Howard

Well I'm no different than the average girl
My dreams wrap around the world
And I'll be living somewhere in France
When my dreams come true

There'll be a big boat waitin' on me
I'll ride it out to sea
And I'll get up on the roof and dance
When my dreams come true
When my dreams come true

I'll find me the perfect guy
Whose heart beats just like mine
And his great ambition will be me
When my dreams come true

He'll say, honey, you sure look nice tonight
Every night
And he'll beat all you've ever seen
When my dreams come true

For eternity
When they turn into
My reality
I'll be with you
When my dreams come true, yeah

If I'm sleepin' please don't wake me up
At least this way
I'll know what I'm gonna do
When my dreams come true

For eternity
When they turn into
My reality
I'll be with you
When my dreams come true

For eternity
When they turn into
My reality
I'll be with you
When my dreams come true

For eternity
When they turn into
My reality
I'll be with you
I'll be with you
When my dreams come true, yeah
