

# God

Rebecca St. James

He made the night, He made the day  
Spread the earth upon the waters  
Made the heavens and the rain  
Look at the sky, see His design  
The very same Creator is the one who gave us life

And what is man that He's mindful of us  
We're merely clay in His hands  
And what am I that He loves me so much  
He would die

All that I can say is,  
It's God, truly God  
Can you see, can you hear  
Can you touch, can you feel  
It's God, truly God  
I can't explain any other way  
'Cause it's God

Inside us all there is a void  
All mankind is searching  
For the one who fills the soul  
In Him there's hope, in Him there's life  
The Lord Christ the Saviour  
Is right before your eyes

And what is man that He takes us in  
As His children, to be His own  
And what are we that He wants to be our Father?  
All that I can say is

It's God, truly God  
Can you see, can you hear  
Can you touch, can you feel  
It's God, truly God

I can't explain any other way  
'Cause it's God, truly God  
Can you see, can you hear  
Can you touch, can you feel

It's God, truly God  
I can't explain any other way  
'Cause it's God

Lord I praise You for Your endless love  
Your boundless grace extended to me

God, truly God  
I can't explain any other way

'Cause it's God, truly God  
Can you see, can you hear  
Can you touch, can you feel  
It's God, truly God

I can't explain any other way

'Cause it's God, truly God  
It's God, truly God  
It's God, truly God

I can't explain any other way  
'Cause it's God
