

## Side By Side

Rebecca St. James

Side by side by side by side  
Walking together is the way it should be  
Side by side by side by side  
When you're needing somebody  
Depend upon me  
We'll travel on this journey of life  
Side by side

Everyday of my life, every valley I face  
I know you'll always be there every step that I take  
Let's keep our eyes on the father above  
I need you, you need me, we need love

No need to go by yourself find the way on your own  
You're never out of his sight even when you're alone  
All I'll stay closer than a brother to you  
Arm in arm, hand in hand, two by two
