

Side By Side

Rebecca St. James

Side by side by side by side
Walking together is the way it should be
Side by side by side by side
When you're needing somebody
Depend upon me
We'll travel on this journey of life
Side by side

Everyday of my life, every valley I face
I know you'll always be there every step that I take
Let's keep our eyes on the father above
I need you, you need me, we need love

No need to go by yourself find the way on your own
You're never out of his sight even when you're alone
All I'll stay closer than a brother to you
Arm in arm, hand in hand, two by two
