## Loki

Rebellion

Well you may call me evil Cause I stole Sif's hair But I went to Svartalfheim To settle the fate And you may claim Balder's death upon my soul But you know his light hurt my eyes And so his life I stole

What would Odin be Without Gunghir I gave And to Thor I presented Mjölnir as a fave What would Asgard be Without the wall I had you build And Sleipnir born of my guilt

Lord of Chaos Brother of wisdom The other side of good Lurking in your mind Lord of Chaos By evil kissed and Your other side The evil I will find

Thor, when Mjölnir was stolen by Thrym Was it not me who took you to him And I saw you in disguise as a wife as a thief Until mighty Mjölnir you could retrieve

Lord of Chaos Brother of wisdom The other side of good Lurking in your mind Lord of Chaos By evil kissed and Your other side The evil I will find

And with Angraboda all right It was a hot and drunken night Never knew what she would bear But for my children I must care But how dare you bind me And not let death find me I swear I'll get you back on Ragnarök

Lord of Chaos Brother of wisdom The other side of good Lurking in your mind Lord of Chaos By evil kissed and Your other side The evil I will find Lord of Chaos Brother of wisdom The other side of good Lurking in your mind Lord of Chaos By evil kissed and Your other side The evil I will find
