

# The Uprising

## Rebellion

I've been to Sicily to fight the arabs back  
In Odins name i raised my axe for the attack  
Serving in Haralds ranks, for honour and for fame  
And now we're back in the grand town  
to raise our claim

Storm and fire  
we'll provoke to those  
Standing in our way, a sanguine river flows

Call on the warriors  
Varangians unite  
Dethrone the emperor  
The gods want us to fight

Remember the good times  
When we were young and full of pride  
The uprising begins, the palace burns  
Head for the storm with us or die

Open the dungeon gates  
for Harald to break free  
Let's follow him in union and for victory  
Down To the chappel  
where the emperor tries to hide  
Michael the 5th you're dead and gone,  
by Odins might
