

## Vae Victis

## Rebellion

The time has come we will send  
Your legions doomed to meet their end  
There's no way out, nowhere to run  
Our triumph blossoms in the sun  
The ground turned red, by Roman blood  
Your leaders died by their own sword  
A warning for all time

Don't set your flag on our land, we'll never kneel  
Defeated by barbarian tribes, now does it feel  
Your pride and joy lie shattered at our feet  
At Teutoburg ground - Vae Victis  
- Where empires bleed

See me now, first of my tribe  
As destiny is on my side  
Fight for freedom, Cherusci rise  
Gaze right into your enemies' eyes

We built a wall to hold them back  
The Romans face our last attack  
Here where it shall end

At Teutoburg grounds  
Sacrificed in our holy groves  
Remains preserved in time

Your empire bleeds  
At Teutoburg grounds  
Augustus
