

## Bump

## Rebelution

So hear me now while allowed  
It's a good time to tell you when to smile, not to frown  
Yes you're all shot down and you might ask how  
Time flies by and you just found out

You're almost to the point where you can't turn back  
You've got a leveled head on a one-way track  
Don't tell me there's an end to a road  
Your goal set on hold, don't think that you can go alone okay?

But keep me up to date I promise you I'll never lose the faith  
When you get up, go on escape to a scary world  
The old cliché is true you do what you gotta do  
I'm tryin to put out something new

I'm always at the edge of my seat  
Constantly containing that kinetic energy  
Constantly I'm reigning in the sweet melody  
And I'm humming tunes to sleep  
Watch me hit the peak and I'll stay up for good

This is what I'll say to you  
This is my advice for you  
Show me love and I'll come through  
This is what it comes down to

And I'll be shouting with my hands in the air  
I don't care what they say, stop the hate  
I'll replace it with my eyes focused in on a place  
Designed to keep a peace and refrain from race killing race

Oh my god, did you hear?  
The time it takes for me to make a difference is a near  
And I'm a keep on trying cause there ain't nothing I fear  
On the real, hide the tears  
We'll keep it flowing with a beat right here

This is what I'll say to you  
This is my advice for you  
Show me love and I'll come through
