

## From The Window

## Rebelution

From the window I,  
Wait for a sign,  
And wait through the night,  
I'm alone, I don't mind,

From the get-go I,  
Sing and I cry,  
And try to divide my thoughts and apply,

When the wind blows, Ah, Give me a sign,  
Now give me comfort, love and supply me with,  
Everything I needed, less I want,  
I see the weather changing faster than I thought,

Will we all fall, like we did, when it rained,  
The pressure rises with the fame,  
And time after time, we all fall down  
Only to rise up, to rise up once again,

Don't stop, keep working again,  
Don't you quit, don't you ever give in,  
No doubt, just to let you know I'm a friend,  
Til the end, til the end, til the end,

From the window I,  
Wait for a sign,  
And wait through the night,  
I'm alone, I don't mind,

From the get-go I,  
Sing and I cry,  
And try to divide my thoughts and apply,

When the wind blows, Ah, Give me a sign,  
Now give me comfort, love and supply me with,  
Everything I needed, less I want,  
I see the weather changing faster than I thought,

Will we all fall, like we did, when it rained,  
The pressure rises with the fame,  
And time after time, we all fall down  
Only to rise up, to rise up once again,

Don't stop, keep working again,  
Don't you quit, don't you ever give in,  
No doubt, just to let you know I'm a friend,  
Til the end, til the end, til the end
