

More Than Ever

Rebelution

Just like I said before give me two weeks
When I come home I'll come and say hello
With hugs and kisses for you Mrs. how I've missed you so
Been gone forever nothing better than to see you though

And tell me how you been
Don't act surprised this is how I am
I'm feeling good and that's real
You and me should kick it more than ever

Remember me and you

Remember when we'd sit
Talk face to face and wonder whether we'd be making it
And chat for hours 'bout the leftist side of government
I'd sit and listen to your words and I'd be loving it

Now the times have changed
Older but we always stay the same
I'm filling up the whole lane
You and me should kick it more than ever

Remember me and you
