

Sky Is The Limit

Rebelution

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

There's nothing like a clear peace of mind
To overcome the hardships in life
To sort out the wrong from the right
Someone's in line, but they can't get me down

I got my own self by my side
And mentally we gotta be free
I see the wickedness coming full speed
But, I hold together like the ball needs the seam

I'm trying to do something not nothing
You're trying to hold me back and that's fine
Nothing you say or do is worth my time
Good day to you, I respectfully decline

And now I'm coming stronger than ever
You say I'm a fool
I say whatever
I'm in it for the good vibes together
And the love lasts forever

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

Nothing you can do to me now
Nothing you can say to me now

Now it's been seven years running
Backyards and front yards and at the eight seven
Some hit the scene with a bang and that set it
And some they didn't really work hard to get it

Dream on they say dream on you're weak,
But my hand's still high cause in my mind I've achieved
IV set the pace for a dream
6500 all the living I need

There's nothing you can say to me now
There's nothing you can do to me now
Nothing you can say to me now
There's nothing you can do to me now

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

No time for the wicked
If you're in my line, I'ma go around the side, and still bring it
Sky is the limit
Out of my way
You can't get me down

There's nothing you can say to me now
Nothing you can do to me now
