

# Aeons Of Ruination

Reciprocal

The divine power in  
nature  
Emanating from the Holy Deity  
Various roles in destructing  
A universe  
of imploding moons  
Becomes the region of space  
Surrounding the bodies on  
Earth  
Annihilating the frail and weak

There will be (only immortals  
surpass  
The eliminating ritual of the one Lord)  
No one left

The oblation  
of human kind seems to subside  
Bindings made of mortal flesh  
Aeons of  
ruination  
Inscriptions of The Avatar  
Planets burn in sight of His Holy  
Tome  
Shredding faces melting skin  
Centuries of scorching skulls  
The pleasure  
of dying is merely lost  
In timeless agony  
Orbiting  
endlessly  
Burn

Recreation of the throne  
Establish dominion over  
nature  
Conquering victoriously

The central body known to provide the  
light  
Sphere of hydrogen and helium aeons away  
Nuclear fusion reactions in  
the interior

Explodes and approaches the earth  
Humanity now in  
extinction  
The alien realm is decreeing  
Cloning beings for  
experimentation  
Torturing the unborn fetus of dehumanization

The  
Invasion  
Annexing territory  
Seizing terrain  
All Ends...
