

# Voice Of Evil

## Reciprocal

Reoccurring visions of me stabbing my entire family  
Arranging bodies in their own blood  
Following commands from the angels that demanded that they die  
I set my family on fire

Of what defines demonic possession  
I was told to obey the voice of evil

This is psychology a feeble mind does not understand  
Schizophrenia twisting my reality  
Brain abnormalities cause our cognitive deficiencies  
Or could it be that we are influenced by the voices of the ancient entities?

Schizophrenic violent phase, psychotic with mental flashes  
Relapse into delusional states, persisting continuously  
Vivid hallucinations, thoughts entranced with horrid visions  
Paranoid insanity, driven by voices inside my mind

Devils, demons, evil  
Found paths to this dimension  
Channeled, conjured, possessed  
By disembodied dead  
Vulgar, outburst, obscene  
Message is sacrilegious  
Language unknown, unheard  
Words translate ancient tongues

Unexplainable by study of scientific means  
Paranormal existence to experience clairvoyance  
My perception is extra sensory, telepathically  
Parapsychology, seeing visions past and future  
Demonic spirits, majestic angels who hath summon thee  
Disembodied souls that discarnated in after-death  
Shape shifting human showing hideous face deformity  
Whispering secretly, they are going to kill me

Shadows of spiritual realms  
Demons are taking control  
Evil spirits possess thy weak soul  
Angel manifestation  
Ancient apparition  
Serpent malevolent is haunting me

I will never find a true deliverance from voices in my mind, driving me to suicide  
Suspended state of levitation, breathing reaching full cessation. My soul is under their control  
Sensations physically of feeling wings ripping from my back and flying to the angels call  
strally projecting into heavenly ascension. Never did I see in dreaming death below the window

Leaping from the ledge to angels in the light...
