

Castanets

Reckless Kelly

She plays castanets, she works without a net
I like her better when she walks away
She said she was mine, she told me twice
I like her better when she walks away

Chorus:

I like her better when she walks away
I like her better when she shouldn't stay
I like her better when she danced my way
I like her better when she walks away

I love the sun when it silouhettes
I like her better when she walks away
I love her hair falling across my face
I like her better when she walks away

CHORUS

She plays castanets, she works without a net
I like her better when she walks away
She turns me on like a pick up truck
I like her better when she walks away

I love the sun shining through her dress
I like her better when she walks away
I like her hair in a tangled mess
I like her better when she walks away

CHORUS
