Set Me Free

Reckless Kelly

Set me free, set me free I need a little more room to breathe And the freedom to do what I please Mama set me free

Set me free, set me free Let me see what I can see Have mercy on a boy like me Mama set me free

Drop me off on a mountaintop somewhere Well I'Oll point O'em down and say my prayers No one understands it, maybe they don'Ot care We'Ore only here because itO's there

Set me free, set me free I wanna be what I can be City livin'D ainD't livin' to me Mama set me free

Set me free, set me free Let me see what I can see Have mercy on a boy like me Mama set me free

Well I'Oll go where people don'Ot go Where the iron horses don'Ot roll High above the sea of gray below The great mystery and the cold wind blows

Set me free, set me free I need a little more room to breathe And the freedom to do what I please Mama set me free

Set me free, set me free Let me see what I can be Have mercy on a boy like me Mama set me free

Have mercy on a boy like me Mama set me free Have mercy on a boy like me Mama set me free
