

Somewhere In Time

Reckless Kelly

somewhere in time we were lovers
somewhere in time we were friends
somewhere in time we let the world overcome us
somewhere in time never ends
i was lightning over wales and you were moonlight in vermont
we were wind to fill the sails
and we were halves and we were one
somewhere in time we were a man and a woman

Chorus:

maybe next time around we'll be ghosts
maybe drift through a sweet by and by
maybe next time around we'll be ghosts
and forever we'll make love in the sky
maybe someday, somewhere in time

somewhere in time i was a river
somewhere in time you were too
somewhere in time i was a taker and a giver
somewhere in time so were you

you were made into a rail and i was dust along the tracks
you were runnin down a trail and i was drownin in a sack
somewhere in time we stood still

repeat chorus

maybe someday, somewhere in time
maybe someday, somewhere in time
