```
somewhere in time we were lovers
somewhere in time we were friends
somewhere in time we let the world overcome us
somewhere in time never ends
i was lightning over wales and you were moonlight in vermont
we were wind to fill the sails
and we were halves and we were one
somewhere in time we were a man and a woman
```

## Chorus:

maybe next time around we'll be ghosts maybe drift through a sweet by and by maybe next time around we'll be ghosts and forever we'll make love in the sky maybe someday, somewhere in time

```
somewhere in time i was a river
somewhere in time you were too
somewhere in time i was a taker and a giver
somewhere in time so were you
```

you were made into a rail and i was dust along the tracks you were runnin down a trail and i was drownin in a sack somewhere in time we stood still

```
repeat chorus
```

```
maybe someday, somewhere in time maybe someday, somewhere in time
```
