Roll on

You wild western windblown band Life's waitin' up the road for you and the future's in your han

Well I don't fly no aeroplanes
And I don't ride railroad trains
I just drive my truck down the blacktop lane to the next town

Next week we'll be in Jackson Hole

Got some good friends there to soothe our souls

Lord, don't you know

It's a good town

So roll on You wild western windblown band Life's waitin' up the road for you and the future's in your han ds

I don't live for borrowing
Lord and I don't love just one thing
I believe in all that life brings down our highway

So if you hear our words and songs Take what you need to be strong Don't be afraid to love us We won't do you no wrong

So roll on You wild western windblown band Life' waitin' up the road for you and the future's in your hand s

Yeah, life's waitin' up the road for you and the future's in your hands
