

Edge of Our Dreams

Reckless Love

Every single day, every single night
We had it in the back of our heads
Waiting for the change, ready and prepared
We passed the point of turning back scared

We were caught in between
Of the story lines
We started believing in fairytales
Of good times

We're gonna end up dead
Way before we get
Back into the place where we left
But does it matter now,
We came in to collect
Never knowing what to expect

We got lost in the heat of the crazy nights
Stars in our eyes we got blinded by the lime light

Godspeed, we're living on the edge of our dreams
Where everything is within our reach
And far beyond
I can see, we're living on the edge of our dreams
Where everything is within our reach
And far beyond - my belief

Never mind the cost
If everything is lost
We never had a thing anyway
We're never gonna stop
We give it all we got
If we even gonna make it or not

We got lost in the heat of the crazy nights
Finding the way into fairytales of good times

Godspeed, we're living on the edge of our dreams
Where everything is within our reach
And far beyond
I can see, we're living on the edge of our dreams
Where everything is within our reach
And far beyond - my belief, my belief, my belief

Out here on the street of dreams
Where love is like a dying breed
It's make believe, that you're making real
And that's all there will be

Godspeed, we're living on the edge of our dreams
Where everything is within our reach
And far beyond
I can see, we're living on the edge of our dreams
Where everything is within our reach
And far beyond - my belief
