

## Runaway Love

## Reckless Love

Jump into the back seat  
It's you and me together tonight  
Wrap your arms around me  
Let's ride until we see the sunrise  
Flying down the street like thunder  
The future's right in front your eyes  
Don't look into the rear view mirror  
We're leaving all the trouble behind

Run my baby  
Run-Run-Runaway love  
Run like crazy  
My Run-Run-Runaway love  
Baby you and I were born to be wild  
You and I we can live forever  
You and I RUNAWAY LOVE RUNAWAY LOVE

I love the smell of freedom  
Burning rubber as we're drawing a line  
Screaming like a demon  
Nobody can stop us tonight  
She's turning into red hot metal  
And it only takes a flick of a wrist  
To twist it all the way to eleven  
This story has to end with a kiss

Run my baby  
Run-Run-Runaway love  
Run like crazy  
My Run-Run-Runaway love  
Baby you and I were born to be wild  
You and I we can live forever  
You and I RUNAWAY LOVE RUNAWAY LOVE

Under the black sky  
We leave it all behind  
So take your hand in mine yeeeeeah  
We swore it to each other  
And your name was tattooed over my heart  
We're gonna ride forever together  
Even death can never do us apart
