This Animal

```
The captain's weary
She's lost in wine
The ship is listing
With a broken spine
Home system calling
No husband now
The galley's holding
The end of us all
It's in us all
It's in us all
It's in us all
It's in us all
This animal
It's in us all
This animal
It's in us all
All hands gone missing
Blood banks are dry
Dead vessel screaming
An empty hull
Adrift in silence
Breathe breath no air
All comms are hissing
In space so cold
It's in us all
It's in us all
It's in us all
It's in us all
This animal
It's in us all
This animal
It's in us all
```
