

American Ghost Dance

Red Hot Chili Peppers

1. Oh give me a home
Where the buffalo roam
And the death
of a race is a game
 2. Where seldom is heard
A peacable word
From the white trash
Who killed as they came
 3. Though these words dig deep
They offer no relief
God save the queen
I am an indian chief
 4. There is a secret I keep
It's called the talking leaf
And you better believe
That he speaks his beliefs
 5. Like a rock that bleeds
A sea of grief
My talking leaf speaks of
A wounded knee creek
- R: American ghost dance (4x)
6. A new man
who is with old ways
He walks the streets of life
But he's in chains
 7. I'm alive he cried
I can feel the flame
Burning red inside
I am an indian brave
 8. There is a memory
That lives in my blood
Of the brand you laid
On all you touched
 9. But the burning flame
Turns to burning pain
Genuine genocide
And that's truly insane
 10. So like a wild hurricane
I will dance on the grave
Of my race that died
When it should have been saved
