

# Blackeyed Blonde

Red Hot Chili Peppers

Pumpin' the blood through the heart of New Orleans  
She's the mystic heat of the Bourbon Street dream  
She's just made out of flesh and bones  
But let me tell you little boy you better leave her alone

Leroy Brown thought he was bad too  
Till she left him floatin' in the old bayou  
She's the kind of girl, she's built like a bomb  
She's the blackeyed, blackeyed, blackeyed blonde, get down

Just take  
She's blackeyed  
She's blonde

That blackeyed beauty with the golden crotch  
French electric sex a cock shocking swamp fox  
Heaten queen of sleeze she's hot to box  
But let me tell you little boy she'll clean your clock

A slick and sly spy stuck in the muck of the moat  
Blew his mind to find a diamond in the boat  
Double O dooms day for Mr. James Bond  
She's the blackeyed, blackeyed, blackeyed blonde, get down

Blackeyed blonde  
She's blonde

Pumpin' the blood through the heart of New Orleans  
She's the mystic heat of the Bourbon Street dream  
She's just made out of flesh and bones  
But let me tell you little boy you better leave her alone

Leroy Brown thought he was bad too  
Till she left him floatin' in the old bayou  
She's the kind of girl, she's built like a bomb  
She's the blackeyed, blackeyed, blackeyed blonde  
She's the blackeyed blackeyed, blackeyed blonde, get down
