

Dance, Dance, Dance

Red Hot Chili Peppers

1. You got yours and I got mine
She got his and she got shine
On the moon and overseas
She got ... and we got ...

R: Dance, dance, dance, all night long,
it's all night long
Dance, dance, dance, we got strong,
we got strong
Say hello, it's safe to go
Dance, dance, dance, all night long,
it's all night long
Dance, dance, dance, we got strong,
we got strong
The light is right, let's play tonight,
let's play

2. Give yourself a chance to find a way
The holiness appears, it's here to stay
They got this and we got theirs
She got his and she got bad
You got mine and I got yours
I got love but you got more

R: Dance, dance, dance...

3. Give yourself a chance to find a way
The holiness appears, it's here to stay
Tell your mom and dad it's all okay
The holiness appears, it's here to stay
I gotta love her, I gotta hold her
I gotta... I gotta love her, whoa, I gotta hug her

4. You got yours and I got mine
She got his and she got shine
We got off and she got hot
Sun got hot and then got bad

R: Dance, dance, dance...
