Never too soon to be through Being cool too much too soon Too much for me too much for you You're gonna loose in time

Don't be afraid to show your friends That you hurt inside, inside Pain's part of life don't hide behind your false pride It's a lie, your lie

- R: If you see me getting mighty
 If you see me getting high
 Knock me down
 I'm not bigger than life
- 2. I'm tired of being untouchable
 I'm not above the love
 I'm part of you and you're part of me
 Why did you go away

Finding what you're looking for Can end up being such a bore I pray for you most every day My love's with you now fly away

R: (4x)

3. It's so lonely when
 you don't even know yourself
 It's so lonely...

Every turn looking to burn Some never learn live and learn Stop your searching for a curse Before you end up in a hearse

4. Don't slip away and don't forget I'll give you more than you can get It's so lonely when you don't even know Yourself, come to me

Too late to tell you how I feel I want you back but I get real Can you hear my falling tears Making rain where you lay
