

Magpies on fire

Red Hot Chili Peppers

1. Magpies on fire

Making love like little wolves
out on the porch can leave the medicine
Oh well I'm game for anything at all

Scarecrows are liars
Spins a yarn and no one
ever checked it out,
to see if it was real
Sold you the moon,
and now it's time to fall

All along it's like the bird
who's trapped alone inside the cage
Love

R: What more do you want?
Heaven, what can you take?
I love my mistake
I've been here before

2. All in all it's just

A call of something wide beyond your room

There's a changing of a major,
could ya mind, a thread will do
Love

My gun misfired
Shot myself instead I guess
I always knew I'd be the one to lose
That screen door slammed,
time to make a move, help me

R: What more do you want...

3. All in all it's not the bird

who's trapped alone inside the cage
Love

A bird who'd only live at half your age, girl
A bird who's never really here to stay

R: What more do you want...

Used to watch, she's like a bird
who's now been freed from someone's cage
