

Save The Population

Red Hot Chili Peppers

*: History's so strong
History's so strong
History's so strong
History's so strong

1. Sing another drinking song
The honky-tonk will do
Make another breaking bone
Your favorite ingénue
This, the distant dawn
This, the distant dawn

I put my cards upon the table
I do to speak as I am able
One pixie's broken-down devotion
I threw my pistol in the ocean

Eyes wide with revelation
Shine at the police station
And when the burden comes 'round
I'm sure that you will go down

R: Stay all night, we save the population (4x)

*: Pistol ends its fawn
Sailing through the Lexicon
A pistol, and it's hot
Lot of bottom lines'll be drawn

2. Take another bottle down the block
To land the shrew
Make another awful sound
To ride the gothic through
History's so strong
History's so strong

I put my cards upon the table
I do to speak as I am able
One pixie's broken-down devotion
I threw my pistol in the ocean

Eyes wide with revelation
Shine at the police station
And when the burden comes 'round
I'm sure that you will go down

R: Stay all night, we save the population (8x)
