

# She Looks To Me

Red Hot Chili Peppers

Looks to me like heaven sent  
No lullaby kid no 5%

Any way you want to cut that cake  
She's dyin' from the likes of abandonment

Lost in the valley without my horses  
She need somebody to hold

It looks to me like heaven  
Sent this for your roughest night  
She looks to me  
She looks to me all right

Who's going to take you home  
And hold you when things aren't so bright  
She looks to me  
She looks to me all right

It's a long walk down those tracks  
It's a dirty walk in  
It's a dirty walk back  
Gonna learn awe way too much  
Shootin' dope in the back  
Of a cadillac jack

Slow down the road to my back 40  
She needs somebody to hold

Down in the south seas  
Give me your mouth please  
Resuscitation  
Is the way I find these  
I give you major  
You give me minor  
Don't fade away  
Like an ocean liner  
Now

Lost in the valley  
Without my horses  
No one can tell me  
What my remorse is

God made this lady  
That stands before me  
She need somebody to hold

She shows the world up with a smile  
And then she throws the fight  
She looks to me she looks to me  
All right

Down on the bathroom floor  
She's searching for another light  
She looks to me she looks to me  
All right
