Sir Psycho Sexy

Red Hot Chili Peppers

A long, long, long, long time ago Before the wind, before the snow Lived a man, lived a man I know Lived a freak of nature named Sir Psycho

Sir Psycho Sexy that is me Sometimes I find I need to scream Aaaah!

He's a freak of nature but we love him so He's a freak of nature but we let him go

Deep inside the Garden of Eden Standing there with my hard on bleedin' There's a devil in my dick and some demons in my semen Good God no that would be treason Believe me Eve, she gave good reason Booty lookin' too good not to be squeezin' Creamy beaver, hotter than a fever And I'm a givin' 'cause she's the receiver I won't and I don't hang up until I please her Makin' her feel like an over achiever I take it away for a minute just to tease her Then I give it back a little bit deeper

R: Sir Psycho, Sir Psycho, Yeah He's the man that I met one time Sir Psycho, Sir Psycho, Yeah He's the man that left me blind Sir Psycho, Sir Psycho, Yeah He's the man, he's the man, he's the man Sir Psycho, Sir Psycho, Yeah Yeah!

He's a freak of nature but we love him so He's a freak of nature but we let him go

I got stopped by a lady cop in my automobile She said "Get out and spread your legs" And then she tried to cop a feel That cop, she was all dressed in blue Was she pretty ? Boy I'm tellin' you She stuck my butt with her big black stick I said "What's up ? Now suck my dick" Like a ram getting ready to jam the lamb She whimpered just a little when she felt my hand On her crotch so very warm I could feel her getting wet through her uniform Proppin' her up on the black and white Unzipped and slipped "Ooo that's tight" I swatted her like no SWAT team can Turned a cherry pie right into jam

R: Sir Psycho, Sir Psycho...

Hel-el-lo young woman that I love Pretty punk rocker mamma that I'm thinking of Hold me naked, if you will In your arms, in your legs, in your pussy I'd kill To be with you, to kiss with you, I do miss you I love you

Lay me down, Lay me down, Lay me down... Oh, lay me down Lay me down, Lay me down, Lay me down... Oh, lay me down Descending waves of graceful pleasure For your love there is no measure Her curves they bend with subtle splendor

Now I lay me down to sleep I pray the funk will make me freak If I should die before I waked Allow me Lord to rock out naked Bored by the ordinary time to take a trip Calling up a little girl with a bull whip A lickety split, go snap, "snap" Girl getting off all in my lap The tallest tree, the sweetest sap Blowin' my ass right off the map Oco... and it's nice out here I think I'll stay for a while
