

# The Sunset Sleeps

Red Hot Chili Peppers

1. Floozies at the rainbow  
Superstars that won't get far  
Who is who that we know  
Coochie coo is at the bar

R: Do you really love  
Do you love do you love  
Do you wanna make the call  
We all long  
We all fall

Shoelace for the sirenes  
Groupies and the tyrant's ply

Do your really want  
Do you want do you want  
Do you want to have it all  
We all long  
We all fall

2. I'm so tired  
Well i get by but i could use a few  
I'm so tired that i slept along the way

A suitcase of perception  
Rhinestones and redemption cries

R: Do you really love  
Do you love do you love  
Do you wanna make the call  
We all long  
We all fall

3. I'm so tired  
The sun beats down upon my lonely face  
I'm so tired that i slept along the way

R: Do you really love  
Do you love do you chase  
Do you take this town today  
We all long  
We all face

4. I'm so tired  
Well i get by but i could use a few  
And i'm so tired that i slept along the way

5. The sun beats down upon my lonely face and  
A perfect world with all its perfect places

6. I could use a few for just in cases  
And i'm so tired that i slept along the way
