

Transcending

Red Hot Chili Peppers

1. You are my god, you are my dog
You kept me close, love never lost
I called you hippie, you said "Fuck off"
Said your brother's a real punk rocker

R: Something gonna happen
Something very soon
Transcending flesh could be a breeze
Sending me, oh, over the moon

2. Friends near death you gave respect
Sympathetic intellect
Choices are for one and all
All we are is leaves that fall
That's all

Always be loving you
Now I'm away from you
Always be loving you

Round and round inside your head
Smartest fucker I ever met
Vicious fish bit at your toes
Made you lie and numb your soul

R: Something gonna happen...

3. Mule donkey ass, you bore the load
Of all creation's tortured souls
Choices are for one and all
All we are is leaves that fall

Like no other,
I love you,
you're my brother (6x)

Water flowing and I will drink it
I will drink for you
A part of me left that only you knew
Will never be understood
Will never be understood

4. Hey, gone to stay
Entire lifetime flash before me
In a loving stream
Hey, mother may
I have lost a child but she gave birth
To a loving stream

Oh, never know
When the gods will come and take you
To a loving stream
Oh, heart of gold
The most special thing you gave me was
From your loving stream

In a loving stream

Fuck the magazines
Fuck the green machine
See the human being
In a loving stream
Fuck the legal greed
Fuck the nothing scene
See the family
In a loving stream
