

# Knock Down Drag Out

Red Line Chemistry

Drag it on too long  
And you're bound to come undone

You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me

Back and forth you run  
But the pain remains unsung

You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me  
No more distraction go on and do what you need  
This knock down drag out's over and now I can breathe

Well my regard ain't high  
And I don't mind  
Open your eyes  
The lies are my disguise

You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me  
No more distraction go on and do what you need  
This knock down drag out's over and now I can breathe

No more lying  
No more trying  
No more dying  
No more faith in you
