

I use to be somebody who could control myself
But I can't anymore
I used to have a grip on reality
But I keep on slipping down
Now I'm under pressure
Deny the limitation
I am my own worst enemy it kills me every time

Big machine
I'll take it for a ride
Get inside and grow this
crushing sound
Deny the limitation
Deny the limitation

It's all a part of the animal in myself
And I just don't care anymore
I let it take the shape of duality
And I feel I'm breaking out
Now I'm under pressure
Deny the limitation
I am my own worst enemy it kills me every time

Big machine
I'll take it for a ride
Get inside and grow this crushing sound
Big machine
I'll take it for a ride
Get inside and grow this crushing sound

Deny the limitation
Deny the limitation

It's all a part of the animal in myself
It's all a part of the animal in me

Now I'm under pressure
Deny the limitation
I am my own worst enemy it kills me every time

Big machine
I'll take it for a ride
Get inside and grow this crushing sound
Big machine

Get inside and grow this crushing sound

Deny the limitation
Deny the limitation
